

- **Versatile**
- **Fast:** Adjustable speed from 120 to 240 slices / minute
- **Easy:** Intuitive touch screen
- **Design:** Full stainless steel or painted steel finish
- **Maximum safety**
- **Exemplary hygiene**

## Best-in-class slicing performances for a wide range of bread

### Smooth and quiet for all breads

- New engine generation designed for maximum precision on a wide range of breads, without lubrication
- Soft start and stop function

### Adjustable speed up to 240 slices/minute

- In order to reach the fastest possible speed for each bread type

### Teflon coated circular blade

- Developed to cut through a large variety of breads; from soft to dense, with a hard crust, and even sticky breads

### Planetary blade drive

- Fluid blade movement, avoids back-and-forth shakes
- Robust solution for long-term mechanical reliability

## State-of-the-art ergonomics

### Touch screen interface

- Clear and simple interface, for an immediate and intuitive use

### Multi-positions adjustable bagging spade

- Rotating spade, above cutting chamber, to optimize ergonomics and hygiene
- Two standard (left and right) bagging spade positions
- Or non-rotating front position (option)

### Manual grip

- For all kinds of breads, including sharp ends
- Allows to minimize last slice width

### Upper cover

- Prevents objects placed on the machine (e.g. bags) to be pushed inadvertently behind the machine when opening the front cover
- Rotates for easy cleaning

### Automatic grip (option)

- Just place the bread and the machine does the rest while you continue to serve your customers

### Easy to access power switch

- Accessible from the front of the machine, but not visible; avoids operations by a non-authorized person

## Maximum safety

- Highest safety standards, for machine use by consumers and staff
- The blade cannot run when the machine is not 100% locked

## Smooth and cleanable surfaces

- Internal architecture designed to channel bread crumbs to an easily accessible crumb tray
- Flat surfaces (without recess around)

## Anti-pinch design

- Users cannot inadvertently pinch their fingers in the front cover sliders

# Make it your own

## Exterior

- 4 colours available as standard

- Full stainless steel (structure and outer panels) (option)

- Choice of any color to match your own store themes (option)

## Accessories to enhance staff and consumer experience

- Clip box (option)

- Front bagging stand (option)

- Bag holder (option)
